OBJECTIVE

A motivated and enthusiastic Blockchain Developer with a strong foundation in blockchain technologies and smart contract development. Eager to apply my skills in Ethereum, Solidity, and distributed ledger systems to build secure and innovative decentralized applications while continuously learning and growing in the blockchain field.

EDUCATION

PG Diploma in Blockchain , Digital University Kerala	Aug 2024 – Feb 2025
B.Tech in Civil Engineering , College of Engineering, Trivandrum	Aug 2018 – Jun 2022

SKILLS

Technical skills: React, React Native, Next Js, HTML, TailwindCSS, Bootstrap, Node.js, Express, MongoDB, MySQL, Docker, Figma, Solidity, Ethereum, AutoCAD, SketchUp, V-Ray

Soft skills: Communication, Team Management, Project Management, Problem Solving, Willingness to Learn, Time Management

EXPERIENCE

Site Engineer, Coordinator , RNJ Infratech PVT LTD	Dec 2023 – Jul 2024
<ul style="list-style-type: none">Project Planning, Scheduling: Skilled in preparing timelines, resource allocation, and coordinating tasks using tools like MS Project, or similar.Experience with AutoCAD, SketchUp, or similar design tools for creating and modifying plans.	
Research Associate , Institute of Management in Government	March 2023 – Sep 2023
<ul style="list-style-type: none">Project Management: Managing end-to-end research projects, including planning, data collection, analysis, and dissemination.Collaboration: Working with multidisciplinary teams, external partners, or stakeholders to align research goals.	

PROJECTS

Employee Management System (Git Repo)

- Provides a centralized system to store, manage, and update employee records, including personal details and other important details also.
- Tools used: Next Js, Bootstrap, MySQL

E-Tendering system using Blockchain Technology (Git Repo)

- A decentralized and secure e-tendering platform leveraging blockchain technology.
- Tools used: React, TailwindCSS, Solidity, Hardhat

Book Recommendation System (Git Repo)

- This application uses personalized suggestions to help users choose their next favourite book.
- Tools used: React, TailwindCSS, Nodejs, Express, MongoDB, Docker

Certificate Issuing Web Application (Git Repo)

- A digital platform designed for issuing certificate and downloading the certificate on respected authentication.
- Tools used: HTML, TailwindCSS, Node.js, Express, MongoDB
